## What is it?

For Yoti users: Hub is where you can see all your receipts from sharing your information.

<https://hub.yoti.com>

For organisations or individuals using Yoti: Hub is where you set up an account to create pages and applications to request and receive information from individuals.

Individuals: <https://hub.yoti.com/login>

Organisations: <https://hub.yoti.com/login-organisations>

We have some FAQs on Yoti Hub here:

<https://yoti.zendesk.com/hc/en-us/sections/115001255225-Hub>

## Information collection and use

- We collect information to log you into Hub and to set up an account.
- We also use the information provided by organisations to carry out due diligence.

### For users

Information	Use
Photo (Yoti app attribute share)	<p>To register you for an account with Yoti Hub and to login after that.</p> <p>As this information is a Yoti app attribute, it is part of your app account and so we keep it until you or we close the account and delete the information.</p>
Remember Me ID	<p>To register you for an account with Yoti Hub and to login after that.</p> <p>This allows you to login without having to share any other details each time.</p> <p>See the 'Information sharing' section of the Yoti app privacy policy for more information.</p>

Sharing receipts	Organisations or individuals you share attributes with can download the sharing receipts they receive. They can also delete the receipts. We continue to store the receipts in our encrypted master receipt.
------------------	--

### For individuals setting up pages and applications

Information	Use
Photo (Yoti app attribute share)	<p>To register you for an account with Yoti Hub and to login after that.</p> <p>As this information is a Yoti app attribute, it is part of your app account and so we keep it until you or we close the account and delete the information.</p>
Remember Me ID	<p>To register you for an account with Yoti Hub and to login after that. This allows you to login without having to share all your other details each time.</p> <p>See the 'Information sharing' section of the Yoti app privacy policy for more information.</p>
Contact details	We ask for your email so that we can get in touch with you if there are changes to our services that you need to know about.

	<p>We also ask for a link to your 'contact us' page or your email so that users can get in touch with you. They will see this information on your page / application.</p> <p>We are also able to view the pages and applications you set up to be able to monitor them for T&amp;C breaches.</p> <p>We have some limits on the types of personal information you can request from your users. If you would like the full range of personal information attributes to be available, you will need to be an organisation and register with us.</p>
--	--

**For organisations**

<b>Information</b>	<b>Use</b>
Photo (Yoti app attribute share)	<p>To register you for an account with Yoti Hub and to login after that.</p> <p>As this information is a Yoti app attribute, it is part of your app account and so we keep it until you or we close the account and delete the information.</p>

Remember Me ID	<p>To register you for an account with Yoti Hub and to login after that. This allows you to login without having to share all your other details each time.</p> <p>See the 'Information sharing' section of the Yoti app privacy policy for more information.</p>
Name, date of birth, email address and mobile number	<p>To set up your organisation account.</p> <p>We request date of birth as part of our customer diligence, as you are able to request various personal information attributes from your users. Asking for a date of birth reduces the likelihood of fraudulent organisations being created to harvest personal information.</p> <p>We keep this information to register you as the person who set up the organisation account. We may use the email and phone number if we need to contact you.</p> <p>We keep this information for five years from when you or we close the account.</p>

<p>Organisation details, administrator and director details, and other relevant contacts, such as for billing or technical information</p>	<p>To administer and update your account.</p> <p>To send you account information and updates.</p> <p>To confirm with the Director listed that the use of Yoti and the administrator are authorised.</p> <p>We keep the information for five years from when you or we close the account.</p> <p>We are also able to view the pages and applications you set up to be able to monitor them for T&amp;C breaches.</p>
--	---

## Billing

We use a third-party payment provider, Stripe, for invoicing and billing. We provide relevant organisation and billing contact details, transaction and pricing information to Stripe for your account so they can correctly invoice you. Where you have the opportunity to provide card details directly within Hub, we do not store these and they are sent directly to Stripe.

## Information sharing

**Users:** if you share personal information using Yoti, the individual or organisation receiving that information will use Hub to view the sharing receipts, and may choose to export the information into their own systems.

**Organisations setting up a Hub account:** we may carry out due diligence which may involve checking information you provide against third parties.

## Security and data location

We encrypt the sharing receipts you access through Hub and we store them in our UK data centre. Only the parties involved in sharing and receiving the information can access them.

If you use Hub to set up an account to create pages and applications, we securely store some of the information in the UK data centre, and some is in AWS EU data centres (soon to be moved to the UK data centre). We encrypt some of the personal data, such as your name and email.

If we decide or are obliged to send or store your personal information in another country, we will update this section to describe the protections we have put in place.

## **Your rights and choices**

Please see below for the rights that apply to Hub personal information.

Please send any rights requests to: [privacy@yoti.com](mailto:privacy@yoti.com)

### **Access rights**

You are entitled to know what personal information we hold about you and to receive a copy of it.

#### **For users**

You can see all your sharing receipts in Hub and can get a copy by taking a screenshot or by using your browser's 'Save as' function. We are working on the ability to download receipts from within the app instead.

If you have set up a page or application, you can access the information you provided at any time within Hub. You can get a copy by taking a screenshot or by using your browser's 'Save as' function.

#### **For organisations**

You can see the sharing receipts from your pages / applications in Hub and can download them.

You can access any contact details you provided at account set up in the Hub settings. You can get a copy by taking a screenshot or by using your browser's 'Save as' function.

### **For all**

You log in by sharing attributes from the app, so you can access those at any time in the app, and get a copy by using the download function in settings. We don't store the login information on Hub.

### **Correction rights**

You are entitled to correct personal information we hold about you that is inaccurate.

The sharing receipts you see in Hub are generated by information shares made using the Yoti app, so they will be an accurate reflection of the share.

For individuals and organisations setting up an account, pages or applications: you provide all the information so you can correct or update it at any time within Hub. However, if you want to edit the details relating to the organisation you need to contact us on [organisations@yoti.com](mailto:organisations@yoti.com)

## **Deletion rights**

In certain circumstances you are entitled to ask us to delete the personal information we hold about you.

If you want to close your account and delete your information, you can do so from within the app. You may also find these FAQs helpful:

<https://yoti.zendesk.com/hc/en-us/sections/202203845-Managing-my-Yoti-account>

Users: if you have used Yoti to share details with a person or organisation, and you want them to delete the information they hold about you that is stored in our Hub platform, please contact them directly.

Organisations and individuals setting up pages / applications: you can archive applications and you can delete sharing receipts within Hub.

## **Objection rights**

In certain circumstances you are entitled to object to Yoti processing your personal information.

There are unlikely to be any circumstances when this right applies to Hub personal information. If you want to contact us about your objection rights, please email: [privacy@yoti.com](mailto:privacy@yoti.com)

## **Restriction rights**

In certain circumstances you are entitled to ask us to restrict our processing of your personal information.

You can ask us to do this if:

- you dispute the accuracy of your personal information;
- our processing is unlawful but you prefer restriction to deletion;
- we no longer need the information but you need it for legal reasons; or
- you have objected to our processing and we are still dealing with this objection.

If you want to contact us about your restriction rights, please email: [privacy@yoti.com](mailto:privacy@yoti.com)

## **Portability rights**

In certain circumstances, you are entitled to receive the personal information you have provided us in a structured, commonly used and machine-readable format.

This is only relevant to Hub for personal information you provided as part of setting up an organisation account or to set up a page or application. You can get a copy of this information by emailing:

[organisations@yoti.com](mailto:organisations@yoti.com)

### **Complain to the ICO**

You can also complain to the Information Commissioner's Office (ICO) who is responsible for making sure that organisations comply with the law on handling personal information.

<https://ico.org.uk/global/contact-us/>

## Cookies

See the 'Cookies' heading in the 'General' section for more information on what they are, why we use them, and what controls and choices you have.

<b>Name of the cookie</b>	<b>Type of cookie</b>	<b>What we do with it</b>
_ps	Strictly necessary cookie	Stores only a session ID (no user data).
_csrf	Strictly necessary cookie	Security feature to prevent account hijack.
xsrftoken	Strictly necessary cookie	Security feature to prevent account hijack.
channel_id	Strictly necessary cookie	Used to identify which mobile to communicate with.
refId	Strictly necessary cookie	Used with channel_id and is also used to identify which mobile to communicate with.
privateKeyPem	Strictly necessary cookie	Used for decrypting personal information - no data from this

		cookie goes to Yoti.
devicePublicKey	Strictly necessary cookie	The public key of the phone that was used to log in to Hub. Used to securely communicate between the phone and the browser.
signedPublicKey	Strictly necessary cookie	To prove ownership of the Public Key.
__stripe_mid	Strictly necessary cookie	Enables Stripe's secure payment systems for us to be able to accept card details.
__stripe_sid	Strictly necessary cookie	Enables Stripe's secure payment systems for us to be able to accept card details.
_ga	Performance cookie	(Google Analytics and Adwords) Used to show us how users arrive at and interact with our website. It helps highlight areas where we can improve and shows us how successful our marketing campaigns are.

_gat	Performance cookie	Used by Google Analytics to prevent attacks on their servers.
_gid	Performance cookie	Used by Google Analytics to distinguish users from each other.
scenarioName	Functionality cookie	This stores the latest flow that the user has taken to log in to Hub. Used to verify navigation.
yoti_ignoreCookieBanner	Functionality cookie	Stores the timestamp of when a user has dismissed the cookie banner so we don't show it again.

## **Analytics**

Understanding how people use Hub is essential. We need to know what's working, and what isn't, so we can improve. As a business, we need to know how many people are using it, where they are in the world, and which features are most popular.

We collect information about your device and your use of Yoti Hub using third-party analytics. We de-identify and aggregate the information we collect so we can't identify you personally. Unlike most other companies, we don't build individual profiles of the people who use Hub. We simply look for trends and patterns to inform business decisions.

See the 'Analytics' heading in the 'General' section for information on what analytics are, why we use them, and your choices.

See below for the specific analytics we use in Hub.

### **Google Analytics**

The information is de-identified so that it is not associated with an identifiable user. The information provides us with statistics on things like:

- numbers of users;
- browser version;

- device make, model and operating system.

This information helps us prioritise and de-prioritise bug fixes for specific browsers and versions.

## Past versions

We changed how we present our privacy information in January 2019 to distinguish between general information and product-specific information. You can find previous versions of the entire privacy information under the 'Past versions' heading in the 'General' section. We will add here past versions of the Hub privacy information if it has been updated.

[14 January 2019](#)

[21 February 2019](#)

## What's new

- We changed the name of Dashboard to Hub.
- Information collection and use: we have added information on the Remember Me ID we request at registration and login, and added more information to explain why we need certain details when you register an organisation.
